Thanks Mark,

The intent was to keep it pretty generic and then talk about specifics. I will see what I can do to incorporate this material. If nothing else I will be sure to discuss this during the talk.

Mike,

The ppt is a tad dense but I'll defer to you and Cynthia whether the level of detail is appropriate. You might want to add a couple of slides specific to CFAC. Here's a few bullets which you might be able to use.

Mark

Anaconda/CFAC

Next Steps

- Negotiate legal agreement
 - Detailed RI/FS work plan
 - Financial assurance for RI/FS
- Under EPA oversight, PRP conducts remedial investigation
- PRP complete feasibility study with continued EPA oversight

- EPA selects remedy in consultation with DEQ
- Opportunity for public to comment on proposed plan prior to remedy selection

Timeline

EPA and CFAC are in the final stages of negotiating legal agreement and work plan
The RI/FS work plan contemplates XXXXX during summer, 2015

Hi Cynthia,

I have put together my PPT for this Thursday. Was wondering if you have a few minutes to spare to discuss.

Hi Mark,

In case you are interested as well. (or can find the time?)

Thanks
Mike

Hi, Mike.

I couldn't find the PowerPoint I told you about, but I think this may be what I actually saw. I think it would make a good series of slides. If you used the arrow to identify each step and then had a few bullets for each one, it might work. I'll keep looking, but I have to head out now.

Cynthia
